Pattern of Stars

A pattern of stars may be likened to a pattern of a new school. The various patterns of stars weave pictures in the heavens. In the development of a new school we too are weaving a picture, a picture of Roy C. Start High School.

The Shield staff has used this theme to portray the growth and development of our school throughout its first year.

It is only fitting that we have used a star pattern as a theme for this first yearbook since the star is representative of the unity within the school. The star also symbolizes the beauty, the purity, and the high standards that we, as students, hope to attain.

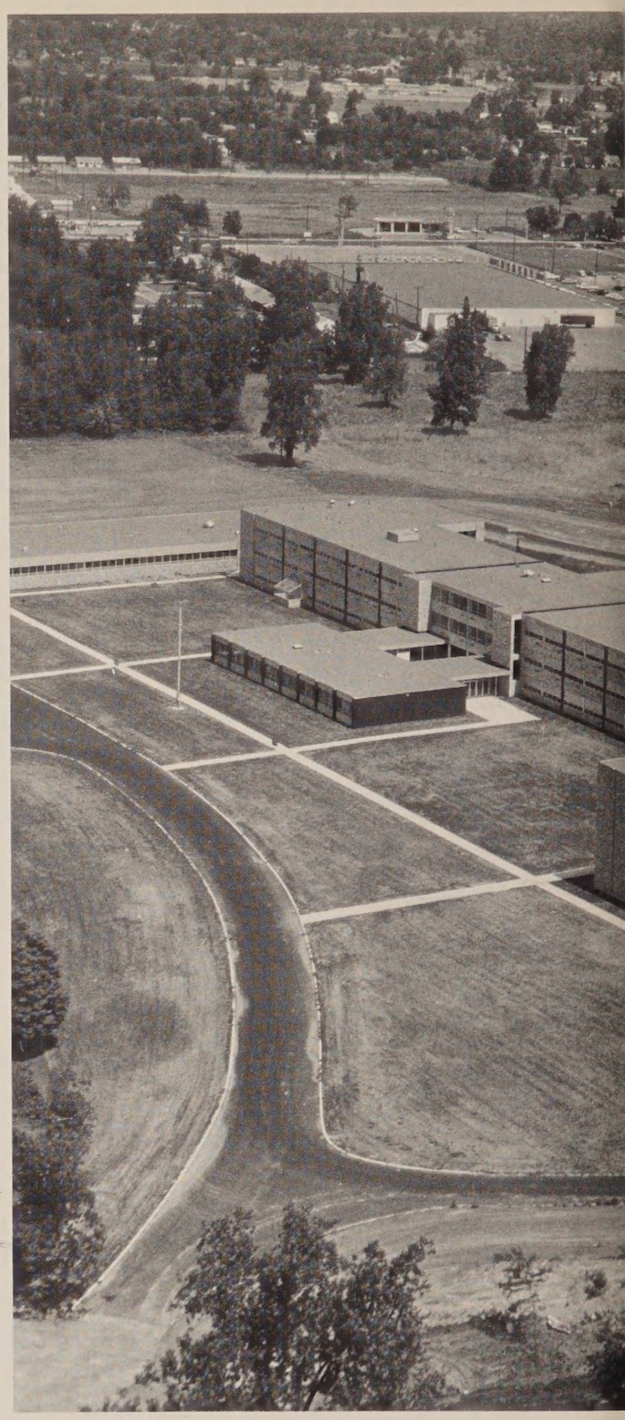
Roy C. Start High School was officially completed July 1, 1962. The school was financed through a twenty million dollar Bond Issue that was passed in 1959. This entire Bond Issue was used for new buildings.

The Lathrop Company constructed the $3,134,871 structure.

The school situated on 30.2 acres was designed by Richards, Bauer and Moorhead.

Under normal conditions the building will accommodate 1800 students.



BUILDING TOWARD A FUTURE IN THE STARS

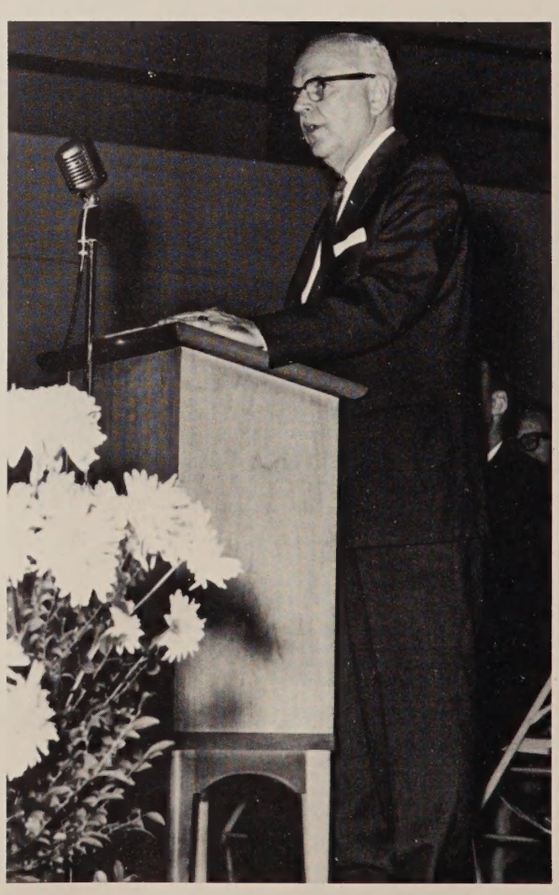
Flags representative of our American hertitage provided a colorful background for the dedication ceremony of Roy C. Start High School, October 24, 1962. The dedication was a fitting climax to the long-awaited opening of our new school. It was three years ago that the citizens of Toledo approved a levy to allot funds for two new high schools.

Dr. Frank Brown, president of the Board of Education presented the keys to the building to our principal, Christian Thomson at the ceremony. The introduction of Roy C. Start's family was a highlight of the program.

The members of the Board of Education, heads of area school systems, and principals of public and private high schools were among the guests.

Dedication

Dr. Brown formally presented the building.



"... Strive to achieve high scholarship goals ..."

Open House

Start High School was opened to the public for the first time Sunday afternoon, October 28, 1962. An estimated 6000 area residents toured the building. Student Council members assisted in guiding the visitors through the school. They also distributed floor plans of the school to the visitors.

The open house also provided the P.T.A. an opportunity to launch its successful membership campaign.

The appointment of Christian R. Thomson as principal of Start was one of the most important steps in weaving the pattern of our new school. Mr. Thomson had the task of getting the school ready for the opening day.

Furniture, books, and special equipment had to be purchased and installed. The selection of a faculty required a great deal of consideration. Faculty members were transfered from Toledo high and junior high schools. Also some new teachers were hired. Administrators worked during the summer getting student schedules in order.

The academic program is now established, but the activity program is still in the development stage. In the first year of operation Start has a newspaper, yearbook, Student Council, band, and choir. Also a number of special interests clubs have been organized.

The P.T.A. had a very successful membership campaign indicating that parents too are interested in weaving the pattern of Start.

STUDENT LIFE

Through These Halls

"And then she said to me . . ."

A short phone call between classes.

Many little activities must be taken care of during the short five minutes allowed for passing between classes. Students meet to catch up on the latest gossip and to brief each other on the material covered in their classes for that day. A quick stop at your locker, a gulp of water from the drinking fountain, and a hurriedly passed note take up that meager five minutes. Just as the bell rings, you step into your next class ready to settle down to another hour of work.

The Thinker

Education. What is it? It is a result that is more than learning. It has its price and wants cultivation that demands constant work and careful study.

Education is a hard task-master, but the rewards to those who serve it every day, week after week, year after year, have the satisfaction of knowing they have attained something great.

An interesting panel discussion stimulates the mind.

To eat or not to eat . . .

"What did you say this was?"

As the bell rings, the kids hurry to the cafeteria to save seats at their favorite tables. They plop down their books and race into line. After devouring their sandwiches and milk, they are again ready to face the long afternoon's work.

Lunchtime offers, not only a chance to fill up empty stomachs, but an opportunity to exchange jokes and gossip with friends. Lunch is also a time to finish the homework which wasn't completed the night before.

The cafeteria is one of Start's best loved classrooms, and lunch is the favorite subject.

Many a romance has started over a sloppy joe.

Toledo Board of Education

Mr. J. A. Anderson

The Toledo Board of Education is outstanding in its desire to educate youth by the best means possible. It has always worked for the progress of our school system. One of its goals, that of providing good educational facilities, was fulfilled upon the opening of the new Start High School. This group of dedicated citizens has unselfishly contributed much time and effort to the advancement of knowledge in Toledo. We are deeply indebted to these people for their encouragement and support.

Dedication Statement

To have had a share in the launching of a great high school is an unusual privilege. Within these walls great traditions will be built. It is our sincere hope that those traditions will include high scholarship and all the attributes of noble citizenship. It is our hope that the teachers who gather here to give intellectual leadership to this portion of the youth of Toledo always will look upon their task as a sacred obligation to those who have brought knowledge to its present level; that they will endeavor to inspire every student to reach the highest intellectual development of which each is capable.

Philo C. Dunsmore

Superintendent of Schools
Philo C. Dunsmore

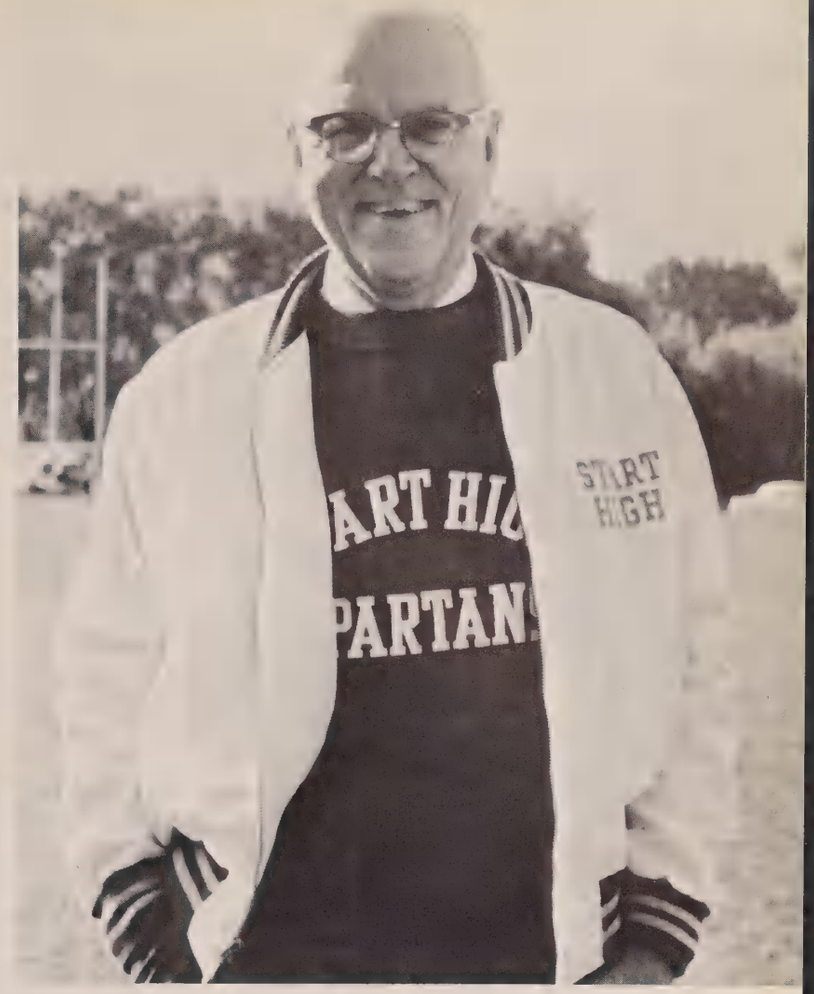
Mr. Dunsmore speaks at Dedication.

Civic leaders join in sending best wishes for the future of Start.

Christian R. Thomson

Christian R. Thomson has dedicated over thirty-three years of his life to the education of youth. During this entire period, Mr. Thomson has been affiliated with the Toledo Board of Education. Twenty-one of these years have been devoted to some form of teaching. The remaining twelve have been administrative. In preparation for this profession, he obtained a Bachelor of Science degree and a Master of Arts degree in Education and School Administration from the University of Toledo. He has had a varied teaching career at elementary, high school and college levels; he has taught in the Signal Corps during World War II, summer sessions at the Universities of Toledo, Michigan, and Bowling Green, ten years of Adult Night School, and Industrial Electronics to the Electrician's Union for two years. He was the principal of Waite High School and Toledo Summer School before his appointment as principal of Start.

Mr. Thomson believes in the "open door policy" for all students. Any student may feel free to go to him for counsel at any time. Being acquainted with many of the students enables him to counsel them wisely when their problems arise. We are fortunate to have a man of this caliber as our first principal.



Start's number one supporter.

Mr. Thomson attacks his daily duties with vigor.

Hilton Murphy

Hilton Murphy, as assistant principal in charge of administration and activities, supervises the program of extra-curricular activities. Mr. Murphy was responsible for organizing the activity program for Start High School. He has attempted to make this a well-rounded and purposeful program. He has assisted the faculty sponsors of the various organizations in his role as co-ordinator.

Mr. Murphy attended Muskingum College, Ohio State, the University of West Virginia, and the University of Toledo. He has a Bachelor of Science degree, a Master of Science in Education, and a Master of Arts in Education.

Hilton Murphy is well known for his activities as a football coach. For the past five years he has broadcast the Ohio State football game.

Assistant Principals

Mary Houser

Mrs. Mary Houser, assistant principal in charge of instruction, supervises and directs the instructional program for the school. She is responsible for development of the curriculum, group guidance activities, and all general testing activities.

Mrs. Houser attended the University of Toledo and Cincinnati. She also attended Hiram and Gregg Colleges. She has a Bachelor of Arts degree and a Master of Education degree.

Serving as president of the North Central Region of National Business Education Association, she has traveled throughout the United States.

Mrs. Houser's philosophy of life is, "a person never stands still; he either goes backward or forward."

Guidance Counselors

Robert Longley

Assistant principal Robert Longley secured a Bachelor of Science degree and a Master of Education degree having attended Miami University, University of West Virginia, Harvard, and the University of Toledo. He taught and counseled in several Ohio towns and in Massachusetts. He is presently head of the guidance program at Start, and counselor to juniors.

Sports are his hobby, and for several years, he has been a tennis instructor.

Margaret Kendall

Mrs. Margaret Kendall was born in Pittsburgh, Pennsylvania. She attended Geneva University in Beaver Falls, Pennsylvania to earn a Bachelor of Arts degree, and Columbia University in New York to obtain a Master of Arts degree. During World War II, she was a communications officer in the Navy. Her present job is that of counselor to freshman and sophomore girls, which she finds to be very gratifying.

David Kuebbeler

David Kuebbeler, a native Toledoan, has a Bachelor of Arts degree from Wooster College, and a Master of Education degree from the University of Toledo. He has taught Orientation and American History. At present he is counselor to freshman and sophomore boys. Mr. Kuebbler has been instrumental in establishing the Student Council at Start and is now serving as advisor to the organization.

Journalism students and their advisor had a year of pioneering as they developed Start's first newspaper.

To find an appropriate name for the publication was the first task of the students as they conducted a school-wide "Name-the-Newspaper Contest."

A name, consistent with the star theme of the school's academic and extracurricular program was hoped to be found through this contest which was the first promotional campaign conducted in Start High School.

The cooperation of the Art department, the homeroom newspaper reporters, members of the Sophomore Class, and the newspaper's literary and business staffs was responsible for guiding the success of Start's first year of newspaper history.

The Projection Club is an organization devoted to serving the school. The members learn how to operate motion picture projectors of all kinds so that teachers may show films in class with a qualified projectionist. This knowledge often leads to an avid interest in motion photography.

Future Nurses of America

The Future Nurses of America club was organized in 1963 for the purpose of stimulating an interest in the nursing profession and related fields. Two of the qualifications for membership are a C or better average and a genuine interest in nursing.

The group had a speaker from the Red Cross at one of their meetings. She gave them information about the Candy Stripers, volunteer nurse's aids in Toledo hospitals. Mrs. Harrison, the school nurse, is the advisor.

Philosophy Club

Philos, the philosophy club, aims to expose the minds of Start students to culture. One of purposes of the club is to expand the minds of the members and to prepare them for academic competition not only on scholarship tests but for education later in life.

The members planned and carried out a book-fair. The profits went into a scholarship fund which will be given to a deserving member of Philos. This will be continued next year. Lectures and round-table discussions were planned for the Wednesday meetings.

A foreign exchange student from Spain visited the club in February. After going on a tour of the building, he met with the club members and discussed United States and European education.

J.C.L.

The Junior Classical League is a member of the National Junior Classical League. Its purpose is to further the knowledge of the classics and of Roman culture.

In their formal induction, the twenty-two members presented a play on Roman gods and goddesses. They celebrated Latin Week in April, culminated by a Roman banquet.

Meetings are held on the second and fourth Wednesdays of each month. In addition, they attend Area Junior Classical League meetings throughout the year. Several members attended a national convention in Columbus. To promote scholarship a certificate will be awarded annually by J.C.L. to the best Latin student in each grade.

Science Club

The Science Club was the first organized group at Start. The members hope to stimulate more interest in the various fields of science. To be a member the Science Club one must have a C+ average and an acute interest in science.

The members of the club had a science exhibition, March 1, where they displayed equipment, drawings, notebooks, and projects. The three members submitting the best projects are featured in this edition of The Shield. For a fund-raising project they had a bake sale to buy certificates for the top projects. They toured Cranbrook Institute of Science in Bloomfield Hills, Michigan on February 22. They had a scientist from the Ohio Academy of Science speak at one of the meetings.

SPORTSMANSHIP LEADS TO THE STARS . . .

SPORTS

Good blocking helps Al Mollenkamp gain needed yardage.

The thundering defeat of Detroit Southgate to the mighty Spartan eleven will go down in Start High football history as the first game played. It was a fitting climax for the team which had spent the summer months practicing for its initial season.

The team, lacking seniors, ended the season with 3—4—1 record. Our victory over Bowsher 20—0 was the beginning of an intense football rivalry between the two new city high schools.

Start will join the city league next year with a full schedule. Mr. Tom Inman, head coach, was responsible for organizing the team.

The teams anxiously await the rebound.

A victorious home season earned us a 9—9 record for our first varsity basketball team. Our only home loss came at the hands of Bowsher in a hard fought battle. The tremendous spirit shown at this game should serve as a spark to increase our rivalry for next year.

Dennis Buss and John Kramer were among the top scorers in the city. Jim Maher coached the team through its first season. Start will break into the city league next year, with an experienced team since we have no seniors and all players will return.

Richard Nasset takes to the air to tip jump ball.

Science Exhibition

Three outstanding science projects were selected from the fifty entered in the first Start High School Science Exhibition held February 28 through March 1.

The projects were judged according to neatness, sustained interest, scope of project, use of scientific method, and presentation.

This event, sponsored by the Start Science Club, is to become an annual affair. The purpose of the exhibition was to introduce an active interest in the fields of science.

Some of the exhibits were entered for competition in Toledo Science Day held at the University of Toledo.

Students enjoy looking at the wide variety of projects.

Science classes take time out to take advantage of the display.

Dedication Prayer

Our Father Who Art in Heaven — we have gathered this evening to dedicate the fruits of our labors and to witness the completion of an ideal. We stand here reverently and humbly, mindful that we have taken another step forward in bringing enlightenment to future generations. We pray Thee, that this school which we have built, will become a treasure house of inspiration and guidance to all those who will come here to drink from our country's great heritage, learning and culture.

During these days of peril from without and confusion from within, may we guard the ramparts of freedom against those who would batter them down. May this school under Thy Providence be a proud beacon of learning where the exchange of ideas is welcomed, where the search for truth is stimulated, the independent mind encouraged, the imagination excited, enthusiasm kindled, latent powers awakened.

May those who labor and teach here, and those who guide and serve this school, nobly discharge the proud privilege which is theirs — to mold the

thoughts and hearts of all students who come here. May they transmit a dedication to liberty, a high regard for brotherhood and equality. May they implant in useful minds the vision of an America united, an America in which men and women of every creed and color work and live in harmony, and enjoy in common Thy bounties and Thy blessings.

And so, O Heavenly Father — That we may keep burning in young minds, the lamps of learning with an ever increasing glow, we dedicate the Start High School.

That we may instill into the hearts of all who enter this school the imperatives of conduct summed up in reverence, righteousness, and reponsibility, we dedicate this school.

That our young will be so educated that when they reach maturity, they will champion liberty's cause and humanity's ideals, we dedicate this school.

May this be Thy will, O God. Amen

The 1963 SHIELD staff expresses its thanks to all who helped in the production of this book. We are especially grateful to the following:

OUR SPONSORS and DONORS for their generosity in providing financial support;

POWELL PHOTOGRAPHY STUDIOS for their fine service and cooperation;

MR. BOB ABRAHAM for the excellence of his photography and never ceasing patience;

AMERICAN YEARBOOK COMPANY;

MR. MARLEN "GUS" HOVERSON for his advice and guidance;

MR. DONALD SIMON for his able business assistance;

and MISS SALLY O'CALLAGHAN, without whom this publication would not have been possible, for her constant efforts, advice, guidance and hours of time spent in making this yearbook another Start first.

Mary,

To a very sweet lovable girl. This year has been the first year that I have had a chance to get to know you. You are a living riot. I hope to get to know you better this summer. Never change.

Bob Cromer

P.S. You thought I was through writing didn't you. I don't know you very well, although we are almost neighbors. So I can't ~~criticise~~ make a criticism on your character. I hope that we will become very good friends this summer. Hope I get a chance to take your swimming with me. Good luck

BC.

Mary,

So, you wanted me to sign your yearbook. Here:

Well, I hope you can give me a ride in your (?) car this summer. But, if you can't, maybe I'll be able to drive by then.
